IN THE SPECIFICATION

Please amend the specification as follows:

Please substitute paragraph 0074 of the original application with the following substitute paragraph. No new matter has been added.

[0074] The disk drive unit 2516 includes a machine-readable medium 2524 on which is stored a set of instructions (i.e., software) 2526 embodying any one, or all, of the methodologies described above. The software 2526 is also shown to reside, completely or at least partially, within the main memory 2504 and/or within the processor 2502. The software 2526 may further be transmitted or received via the network interface device 2522. For the purposes of this specification, the term " machine-readable medium" shall be taken to include any medium that is capable of storing or encoding a sequence of instructions for execution by the machine and that cause the machine to perform any one of the methodologies of the present invention. The term "machine-readable medium" shall accordingly be taken to ~~included~~ include, but not be limited to, solid-state memories, optical and magnetic disks~~, and carrier wave signals~~.
